

Deep Dive In The Archive: Filing like it's '71

NOTES TO SELF:

- File names keep getting corrupted by archived puzzles, must find an answer! You almost got it right this year, but there are still mistakes >:(How can someone find an answer from a puzzle with a random file name?
 - Organization still bad! (See above) Find a Meticulous Excellent Thorough Arrangement for puzzles and label accordingly, one per shelf!
- If letters are underlined, don't stress!
 - Deep breaths, ignore the bits that make you cross
- BOOKS TO READ!!!!!!!!!!!!!! Emphasize reading books on To Read list! Otherwise you'll never get through it

Once you've found your book (but not before), remember to check your local library!
