## MATH TEST

If you can, Rush Hour, but remember to pick up everything you leave behind.

1. The Santa Fe train, a red train leaves the station at 5:48 AM. It rides at a consistent speed of 80 mph . How many minutes before it reaches the next station which is 40 miles away?
2. A CSX gray train leaves the station at 8:54 AM. After 2 hours it has gone 140 miles. How fast is it traveling?
3. A yellow Union Pacific train leaves the station at 4:51 AM. It travels as fast as the CSX and for as long as the Sante Fe train. How many miles does it travel?

THE STATION
